## Holland Council Defers Vote on Water Softener

### Project Includes Cost Of Additional Wells And Underground Lines

Common council Wednesday night deferred action for two weeks on a request of the board of public works to construct a new water softening plant and develop new supplies of water. Council members will study all angles of the recommendation and sample public opinion before next meeting date.

Ald. Herman Mool, who moved that the request be tabled, urged aldermen to give earnest consideration to the subject. He advised widest possible publicity to the project. A full text of the board of public works communication appears on page 7.

Estimated cost of the new project is \$510,000, which includes \$126,000 for the wells and pipe lines, \$277,000 for the water conditioning plant, \$57,000 for a million gallon reservoir and \$50,000 for engineering, inspection, tests and land.

In its communication, the board said that advantages of soft water have long been appreciated. Estimated saving in soap for an average family of five is \$12 per year.

City Clerk Oscar Peterson read a contract by state authorities on the municipal pension plan which became effective here May 1.

On recommendation of Ald. Melvin Van Tatenhove, council instructed the city engineer to proceed with preliminary plans for sewer installations at the Hart and Cooley Co.

Council also granted permission to the board of public works to reinvest funds derived from treasury notes due June 1 and some additional funds totaling \$300,000.

The following inspectors were appointed for the June 18 primary election: Henry T. Reller, first ward; William Lawrence, second ward; Al Faasen, third ward; Ben Wiersma, fourth ward; Don Slighter, fifth ward; J. K. Van Lente, sixth ward.

The first meeting in July will be held July 2 instead of July 3, it was decided.

A communication from John Vander Kolk, proprietor of the Holland city bus lines, requesting a reduction in the amount of public liability coverage as permitted by the public utilities commission, was referred to the city attorney and the license commission.

Petitions from property owners requesting the vacating of an alley between 21st and 22nd Sts. beginning 115.7 feet west of Washington Ave. and running west to Van Raalte Ave., was referred to the street committee.

A communication from Western Foundry Co. requesting permission to build a dust collector which would extend seven feet onto city property was referred to the street committee, the city engineer and the city attorney with power to act.

Oaths of office of Jacob Lievense as a member of the harbor board and Peter S. Boter and Willis A. Diekema as members of the appeal board were accepted and filed.

Council granted licenses to 42 applicants to operate hotels, restaurants and sell soft drinks. Licenses to construct sidewalks were granted to Dyke and Vander Brink, Peter Dryer, and Peter Kalkman. Licenses to operate taxicabs and motor busses were granted to John H. Steffens and John Vander Kolk and licenses to operate junk yards to Bernard Becker and Louis Padnos. A. B. Bosman was granted a license to operate a pool and billiard room and Carley Amusement Co. was granted a license to operate Holland, Center and Colonial theaters with the usual provision that they are not operated on Sunday.

Claims and accounts totaled \$16,575.20. Other claims were hospital, \$9,040.01; library, \$434.97; park and cemetery, \$3,379.45; board of public works, \$56,854.79. The city treasurer reported BPW collections of \$35,638.32 and city collections of \$22,621.72.

## Report Progress In Local Dispute

Progress toward a settlement of the Spring Air strike was reported today as the result of a meeting Wednesday night between company and union representatives, according to A. Bondy Grondberg, company president, and Bastian Bouman, chairman of the union bargaining committee.

Wednesday night's proposals will be submitted to the employees by the bargaining committee at a meeting Friday at 2 p.m. in the Royal Neighbor hall.

Approximately 40 employees walked off their jobs May 23 in a dispute on wage increases. Employees are represented by local 1418, International Association of Machinists (AFL).

## Dirkse to File Denial In Triple Damage Suit

Fred Dirkse of Holland, operator of Fred's Used Car service, will file a denial of the claims by the OPA alleging he exceeded the ceiling price in a used car sale, and will demand a trial, his attorney said today. The denial will be filed with a clerk of the U. S. district court in Grand Rapids, the attorney said.

Dirkse was named in an OPA triple damage suit of \$1,695, alleging that he exceeded the ceiling price on a used auto sale by \$561.

An injunction also is being sought by the OPA to prohibit further violations.

## Cement Block Men Want Explanation

Bernard H. Van Voorst, spokesman for seven cement block manufacturers seeking OPA price relief in this area, received a telegram from W. R. Bigler, regional price division, Cleveland, at 2 p.m. today, stating "Instead of the run-around, you are getting preferred treatment and will receive price relief in very immediate future."

Irate cement block manufacturers of Holland, Zeeland and Hamilton today awaited an explanation from regional OPA headquarters in Cleveland after a United Press report Wednesday indicated that the OPA might have given local manufacturers a "run-around."

Charging a "royal run-around," Bernard H. Van Voorst, spokesman, dispatched a telegram Wednesday night to William B. Bigler, acting regional price economist, who promised Van Voorst in a telegram Tuesday at 6 p.m. that the order on price adjustment would be written within a few days.

The Cleveland office told United Press Wednesday that "nothing has been done for price relief of A and B blocks. Price relief on A blocks must come from Washington, D.C., and nothing has been reported. Regional action on B blocks cannot be made until mid-July at the earliest."

Van Voorst in his telegram had demanded an answer by noon today. At press time he had received no answer.

Local manufacturers, who suspended deliveries May 1 in protest to low ceilings imposed by the OPA, have been promised relief at various intervals since the middle of April.

Van Voorst returned to Holland Wednesday night from attending a meeting of Michigan cement block manufacturers in Lansing where a 10-member committee was appointed to meet in Detroit Monday to complete plans for a protest to Washington OPA officials seeking to ease ceiling prices on cement products. Van Voorst is a committee member.

A general shutdown of cement blocks manufacture until OPA price concessions is hinted.

Walter Kreuger, manager of the Michigan Builders and Supply Exchange, said the Saginaw block plant closed Wednesday and that a plant in Ann Arbor will halt operations later this week.

Holland manufacturers resumed deliveries on a limited scale June 1 after a brief shutdown.

## Council Hears Further Protests on DCA Odors

Further protests against objectionable odors emanating from the Doughnut Corp. plant on West 14th St. were aired at a meeting of common council Wednesday night by Alton Van Faasen, 308 West 13th St., whose letter on the subject appeared in the public opinion column of The Sentinel Wednesday.

Van Faasen said he represented a group of outraged citizens and maybe an outraged council could do something to correct the situation. He said he was told by Ald. John Bontekoe, who was not present, that 15 barrels of DDT would be sprayed on the pit Friday to kill fleas. "But when the fleas are gone we'll still have the odor," he said.

"If something isn't done in two weeks, we could get 1,000 persons to register their complaints. Holland is the cleanest little city I've ever been in and it smells the loudest," he added.

City Attorney Vernon D. Ten Cate said there was merit in Van Faasen's statements and said he himself would be one of the 1,000 to protest since he lives in the west end of town.

Then he cited the many meetings with the Doughnut Corp. which drew in the various boards and departments of the city, the state stream control commission, the county health department and others.

He explained again that the

## Museum Receives Rare Dutch Bible

The Netherlands museum has received a deluxe edition of the Netherlands Bible in three richly illustrated and ornate volumes, each of 21 by 16 inches and gilt edged.

The three volumes, published in 1900 by Van Holkema and Warendorf at Amsterdam, contain the books of the Bible in the translation of the States General of 1639 in somewhat modernized language and spelling. Volume I contains the books Genesis to Kings, volume II the Chronicles to Nehemiah, and volume III the New Testament.

The text is illustrated with 100 copperplates made from drawings by the most famous contemporary masters, designed especially for this edition. Among the masters represented are names from England, Germany, Spain, Russia, France, Italy, Czechoslovakia and the Netherlands. Two well known Dutch masters have contributed with a drawing, namely Josef Israels and Alma Tadema.

The ornament of the text, initials and titles of chapters are designed by the English artist Walker Crane, who made also five illustrations for the book of Genesis. The binding has suffered much throughout the years.

This precious gift came from Mrs. Charles E. Wood-van Doorninck, of Deventer, the Netherlands, now residing at Washington, D. C.

## 16-Year-Old Boy Learns Things the Hard Way

It seems one 16-year-old youth living in the rural area prefers to learn things the hard way.

He appeared in municipal court shortly before 10 a.m. Wednesday to answer a summons "for excessive noise and no tail light" issued to him Monday—concerning some antics in which he "cut up" while passing the police station several times.

After reviewing the youthful offender's record which included numerous summons, during the past few months, Municipal Judge Raymond L. Smith said his operator's license would be cited to the secretary of state. The judge made clear that any arrangement whereby the youth could drive to work would have to be worked out with the state police. He gave the youth permission to drive home.

Imagine the judge's surprise when Officer Ralph Woldring brought the youth into court less than 10 minutes later with a new charge "speeding 40 miles an hour

## Pole and Plug Men Wait Opening Day

Lansing June 6.—Cane pole fishermen and bait casters, already scanning prospects for opening day of bass and bluegill season June 25, have Conservation department assurance that weather this spring has been as favorable as the lake angler could ask for, and that rules of the game are exactly the same as they were a year ago.

Department fisheries men confidently predict the pre-war record of 600,000 licensed resident anglers will fall in this first peace-time season. "Ordinary" fishermen are expected to be out in force.

Fishing has been possible on lakes in two-thirds of the state for some time, but the June 25 date will open all other lakes in the remaining southern third and mark the beginning of fishing for bass and bluegills on all lakes. The season is open then on all waters and on all species of game fish.

Five black bass over 10 inches long and 25 panfish—bluegills, sunfish, perch, crappies and rock bass—over six inches long are the legal creel limits, as before, with a top limit of 15 bluegills in the total. Great Lakes anglers are allowed 50 perch, double the inland lake total. A day's limit catch of white bass is 10 fish seven inches or longer.

## Dutch Kraft Nine Defeats Flying Dutchmen, 7-6

**Ted Coffee Fans 16 Hollanders; B. Bates Hits Four Doubles**

Ted Coffee of Grand Rapids Dutch Kraft fanned 16 Holland Flying Dutchmen batters Monday night in Riverview Park as the Grand Rapids club won, 7-6.

The Paints held the upperhand most of the game and after Holland tied the score 6-6 in the eighth they showed championship form by getting three hits and the winning run in the ninth.

It was Holland's second loss against four victories and Pitcher Lefty Van Wieren's first loss after winning two.

The left-hander had trouble with his control and B. Bates, GR rightfielder, hit four doubles. Every two-bagger Bates hit accounted for a run in one way or another.

In the first inning, when GR took a 2-0 lead, Bates doubled in the first run and scored when Bud Holt doubled.

In the third he put Grand Rapids ahead 3-1 by doubling home Bud De Zwaan.

In the fifth he doubled to start the inning and scored the winning wild pitch and scored on an infield out, giving the Paints a 5-3 lead.

In the ninth he doubled to start the inning and scored the winning run when Third Baseman Ed Foltice hit a double into leftfield.

Holland had nine hits but only four of them were through, or over, the infield.

The Dutchmen scored in the first inning. Wayne De Neff walked, was sacrificed to second and came home on Harry De Neff's single to center.

They added two in the third. Lefty Van Wieren beat out a roller to the third baseman. He went to third and W. De Neff to second when the catcher threw a bunt into centerfield. Don Van Lente singled them home.

In the eighth Holland got three. Loren Wenzel and H. De Neff singled. Juke Van Huis sent them home with a double past first base. Van Huis went to third on a wild pitch and scored when Harold Van Wieren hit a high bouncer to the first baseman.

Mike Skaalen relieved Van Wieren in the ninth.

## Many Holland Children In Need of Vaccination

Smallpox, diphtheria and whooping cough are serious diseases of infants and childhood and parents are assuming a grave risk if they fail to have their children immunized, said Dr. C. D. Barrett, of Grand Haven, Ottawa County health officer, as results of findings in the recent pre-school clinics held here were tabulated.

It was found that only about 30 per cent of the children were protected against smallpox, 50 per cent against diphtheria, and 69 per cent received whooping cough vaccine.

"It is within our power to eradicate diphtheria and smallpox from this community through complete immunization," he said. "Why risk your child to these diseases when they can be so easily prevented?"

Dr. Barrett pointed out that exposure may occur at any time and non-immunized children are likely to contract these diseases. Diphtheria and smallpox can be prevented. Most children can be protected against whooping cough, and even if not prevented, the vaccine usually makes this disease less severe. There is no danger involved in any of these immunizing procedures, he said.

Parents are urged to see their family doctors for immunization of their children against these diseases. If unable to do so, they may contact the health department for further information. Booster doses of diphtheria, toxoid and whooping cough vaccine are advised for all children entering school.

## Hog Growers Get Warning to Check Confusion of Cholera, Erysipelas

Grand Haven, June 6—Many of this spring's pigs will die of cholera because their owners mistake the disease for erysipelas—and many more will die of erysipelas because owners think it is cholera.

County Agricultural Agent Leo R. Arnold says that both cholera and erysipelas look so much alike that it is difficult to distinguish between them without a careful diagnosis.

Here are points to be borne in mind: In case of cholera, the hogs will not eat when aroused; erysipelas hogs will eat.

Cholera-sick hogs are dull; erysipelas hogs have bright, alert eyes that watch everything that is going on.

Death losses start slowly and increase steadily with cholera; but in erysipelas outbreaks the major death losses occur immediately and then decline.

Erysipelas has spread rapidly in recent years, and is a particular threat at this season, because it frequently attacks within a few days or weeks after pigs are born. At the same time authorities are seriously concerned about the cholera threat.

Another upswing in the cholera cycle is overdue and fewer hogs were immunized against the disease last year. This is leaving many communities wide open to it, if it should strike. If hogs get sick, call a veterinarian at once, Arnold advised.

## Farm Expert Says Fertilizer Pays

Grand Haven, June 6—How Ottawa county potato growers can get the most from money spent for potato fertilizer is explained by Leo R. Arnold, county agricultural agent.

It must be remembered that the potato is a heavy feeder and requires an abundance of quickly available plant food, Arnold says. High yields are possible only by a combination of practices such as plowing under a large growth of succulent leguminous green-manuring crops, the addition of stable manure, and the liberal application of properly balanced commercial fertilizer.

Arnold cites Michigan State college experiences reported by E. D. Longnecker, of the department of soil science.

The best position for placing the fertilizer, according to Longnecker, is in bands two inches from either side of the seed piece and slightly below the seed level. Placing the fertilizer so that part of it contacts the seed tends to result in a poor stand. Broadcast applications are also less effective.

# LEARN TO DIAL BY EAR

THAT dial tone is mighty important. It means that the switching equipment in the central office is ready to handle your call. If you dial before you hear it, you'll get a wrong number or no number at all.

Right now there are times when the dial tone is delayed. That's because, in a continuing effort to give some kind of service to as many waiting applicants as possible, we are loading our central office equipment far beyond its normal capacity—even at the risk of lowering the quality of service.

This situation is only temporary. We will restore service to normal as quickly as enough dial equipment can be provided.

Meantime, please remember to listen for the dial tone before you dial.

## PLAIN TALK FROM PAIR

Of course Spain has a perfect  
right to engage in atomic experi-  
ments. The mere fact that we or  
England or Russia or any other  
country could question it shows  
how twisted international logic  
has become.

The Franco government the  
other day proudly announced that  
no country on earth had a right  
to prevent it from engaging in  
atomic operations, either in the  
form of bombs or in that of in-  
dustrial atomic energy. Spain is  
not a member of the UN and has  
not subscribed to any commit-  
ments made by that body. The  
government spokesman announced  
that no atomic operations were  
in progress, but if there were it  
was Spain's own business and no  
one else's.

Unpleasant though such an idea  
may be to the rest of the world,  
it represents no more than ordi-  
nary common sense. If Spain is a  
sovereign nation, what scientific  
operations she engages in are  
plainly her own business. We  
would never admit that any other  
country had a right to dictate to  
us on such a matter. If the Fran-  
co government is regarded as a  
usurpation, any other nation of  
course has the right to withhold  
recognition from it. But it is up  
to the people of Spain to over-  
throw that government.

But as long as it is the govern-  
ment of Spain its assertion that  
its internal affairs are its own  
business is not even subject to  
question. No other country or  
group of countries has been ap-  
pointed as Spain's guardian or  
keeper or jailor. There are all  
sorts of ways to bring pressure  
to bear on her if we don't like  
what she is doing in her internal  
government. We and the rest of  
the world can withhold food and  
oil and other commodities that  
Spain needs to stay on even keel.  
We are within our rights to starve  
Spain and to isolate her if we are  
convinced that such a course is  
for our own eventual protection.

But as long as any government  
in Spain—or in any other country  
for that matter—is recognized as  
the government, the internal af-  
fairs of the country are its own  
business. Without that right a  
country would cease to be a coun-  
try, and a government would cease  
to be a government.

Yet during the recent agitation  
about Spain brought on by Russia  
via Poland, millions of people have  
been talking as if somehow it was  
a crime for Spain to engage in  
atomic experiments. If that's true,  
then it also was a crime for us to  
engage in such experiments. Any  
other theory does not make sense.

Sunday School  
Lesson

June 9, 1946  
Training for Service  
Mark 6:1-13; Luke 10:1-20;  
Luke 14:25-27

By Henry Geerlings

One distinctive feature of Jes-  
us' training program reflected  
His confidence in the ability of  
common men to do great things.  
Simon Peter did not show any  
great promise prior to becoming  
an apostle, and in fact not until  
Jesus' earthly ministry was com-  
pleted. Yet he was singled out as  
a rock. Jesus predicted that he  
with the other members of the  
Galilean fishing firm would some  
day wield great power.

An equally impressive illustra-  
tion of His confidence that men  
would respond and succeed was  
the case of Matthew, who was  
called from the tax collector's of-  
fice, although his background,  
training and reputation argued  
against his ability to make any  
contribution to the kingdom pro-  
gram.

The fact that Jesus saw great  
promise in very unpromising men  
does not mean that He disregard-  
ed the abilities of rarely gifted  
persons. In the case of the rich  
young ruler, one of the most out-  
standing persons mentioned in the  
record, Jesus loved him and prob-  
ably dreamed of the kingdom ser-  
vice such a person could perform.  
He did succeed in capturing an  
intellectual giant, Saul of Tarsus.  
He could use Paul or the un-  
learned Peter, but both men had  
to come under the program Jes-  
us prescribed. Even the talented  
Paul had to learn that no man in  
himself is sufficient for the work  
of Christ.

The preaching mission upon  
which Jesus sent His apostles was  
to the Jews. They were to go to  
the lost sheep of the house of Is-  
rael. Upon entering a town, they  
were to inquire who in it was  
worthy, who awaited the coming  
of the Messiah. Jews all over the  
Roman world, and more particu-  
larly in Palestine, were fired with  
such a hope. The apostolic group  
was built around it.

The amazing outreach of the  
early church was due, in part, to  
the fact that the message that  
the Messiah had come was carried  
to Jewish enthusiasts, who had  
been waiting for the messiah.

The first and initial message of  
repentance—a call to get rid of  
sin within the soul. No other mes-  
sage has meaning until we heed  
this one. The soul's first and  
greatest need is to get rid of sin.  
No amount of plans and pro-  
grams and rituals can take the  
place of this one essential repen-  
tance.

There are those who will listen  
and those who will not. We are to  
do our very best, with Christ's  
strength, to bring men to repen-  
tance, but always there are those  
who choose to be lost. It is a sad  
and awful fact that this is so. Un-  
der these conditions it is for us to  
go out into the world and preach  
that men should repent.

The most urgent need in Amer-  
ica today is that our churches  
should do something toward  
reaching and evangelizing the  
people of this nation. Our Sunday  
school classes, our worship ser-  
vices, and our young peoples gather-  
ings, all are important and are  
meeting definite needs so far as  
they go.

But they do not go far enough.  
They are not reaching the people  
who ought to be reached. It is ob-  
vious that we cannot depend on  
people to flock into our churches.  
We are in for bitter disappoint-  
ment if we do. But we can take  
the churches to them. We can go  
after them one at a time, and  
bring them in.

The first essential in working  
with Christ is adequate prepara-  
tion. When Jesus called a group of  
twelve men to follow Him they  
were far from being ready to work  
with Him, and after three years  
under His instruction there was  
still much for them to learn. We  
have only to read the closing  
chapters of the gospels and the  
opening chapters of the Acts to  
discover how great was their  
need of preparation for carrying  
on the work that the Master had  
entrusted to them. So Jesus  
taught them. Both by precept and  
example He taught them. They  
listened to His teachings and they  
worked with Him.

The second essential in working  
with Christ is to share with Him  
the sense of the urgency of His  
task and ours. Both the twelve  
disciples and the special group of  
seventy evangelists were instructed  
by Him in this all-important  
consideration. Then was the time  
He wanted them to do not a year,  
or five or ten years later.

Two by two He sent them out  
to preach, to teach, and to heal  
to do the very kind of work that  
He Himself had been doing. He  
wanted them, and He wants us,  
to learn to work with Him. And  
the two-by-two method He em-  
ployed is today perhaps the most  
effective means of reaching peo-  
ple who would not otherwise be  
influenced by the churches. We  
call it visitation evangelism—a  
modern name, but not a modern  
idea.

The third essential in working  
with Christ is to follow the prin-  
ciple of service in all the relation-  
ships of life. Jesus was the servant  
of all, and His followers must be  
servants too. Everywhere in first-  
century Palestine, there were  
people who needed help, and the  
Master ministered tirelessly to  
them, and He expects no less of  
His followers.

A grid team from Fort Lewis,  
Wash., once participated in a  
Pasadena Rose Bowl game. Known  
as Camp Lewis back in 1918, the

baan, son of Mr. and Mrs. Mito  
Oosterbaan, also of route 3, Dr. H.  
D. Terkeurst officiating.

Palms, ferns, gladioli and sev-  
en-branch candelabra formed the  
background for the ceremony.  
Mrs. Robert Oosterbaan sang "I  
Love You Truly," and as the

a single strand of pearls, gift of  
the groom.

honor, wore a gown of aqua tal-  
feta and Miss Peggy Bos, the  
bride's cousin, was bridesmaid,  
wearing a gown of pink net over  
tulle. They carried bouquets of  
sweet peas in pastel shades and  
wore flower bands in their hair.  
Little Louisa Keeney, another  
cousin of the bride, was flower  
girl and wore a floor length gown  
of pink net. Eddy Wagenveld,  
nephew of the bride, ring bearer,  
wore a white suit and carried the  
rings on a white pillow.

Harold Oosterbaan was his  
brother's best man, and Robert  
and Kenneth Oosterbaan, cousins,  
seated the guests.

Mr. and Mrs. Ben Bosma were  
master and mistress of ceremonies  
at the reception for 100 guests  
which followed. In charge of the  
gift room and punch bowl were

## Thousands Line Curbs for Annual Memorial Parade

### Freedom Here Means Freedom Everywhere, Lubbers Tells Crowd

Several thousand persons lined city curbs for the annual Memorial day parade Thursday and 2,000 converged on Pilgrim Home cemetery afterwards for ceremonies arranged by the various patriotic organizations of the city.

In his Memorial day address at the cemetery, Dr. Irwin J. Lubbers, Hope college president, cited instances of family heartbreak due to the war and charged his listeners to resolve to live in the cause for which their sons and daughters died.

"Our ship of state was launched under trying circumstances. Then we recall the ship of state met the worst storm of its career while captained by a noble man, Abraham Lincoln. The Blue and Grey came together on Decoration day and ever since we have hallowed that day. Let peace be our program."

"With the present war over, a war which claimed the life of a President and the lives of many young men and women, we know the ship of state has weathered another great storm."

"Our nation was founded on the concept that all men are free. Freedom belongs to humankind. Freedom here means freedom everywhere," Dr. Lubbers said.

The American Legion band under the direction of Everett Kisinger played a prominent part in the ceremonies. Gov. Kelly's proclamation was read by Dale Drew of Hope college and Lincoln's Gettysburg address was given by Don Van Ry of Holland high school. Presiding Officer A. C. Joldersma pointed out that Van Ry had two grandfathers in the Civil War, a father in World War I and a brother in World War II.

Dr. J. J. Sessler, pastor of Third Reformed church, served as chaplain. Joldersma read the new names of war dead added to the Memorial program since last year. Boy scouts decorated graves of the veterans.

Gerrit Veurink served as parade marshal.

The day was spent quietly. Thousands crowded public parks and beaches for family picnics and Macatawa Bay was crowded with boats of all sizes. Fishermen took to streams and lakes in swarms. Many householders took advantage of the holiday to work in homes and gardens. Ideal weather prevailed and thousands took full advantage of Lake Michigan beaches attracted thousands, but few took to the water. Too cold, was the consensus, excepting for a few intrepids in the early teen-age.

## Third Church Is Scene Of Impressive Wedding

Miss Myra Jane Kleis, daughter of Prof. and Mrs. Clarence Kleis, 96 East 15th St., became the bride of Roy E. Berry, son of Mr. and Mrs. M.H. Berry of Atlanta, Ga., in Third Reformed church Friday night. Dr. J. J. Sessler officiated at the impressive double ring ceremony performed at 8 p.m. in the presence of 200 guests.

A profusion of iris and syringa, palms, ferns and seven-branch candelabra decorated the altar and small clusters of the flowers marked the pews. Miss Mildred Schuppert, organist, played the Schubert "Ave Maria," "Nocturne" from "Midsummer Night's Dream," Mendelssohn, and Jesu, Joy of Man's Desiring, Bach, and accompanied Bill Vander Yacht, who sang "Because," and later, after the exchange of vows, "O Perfect Love." The traditional marches were used.

The bride was lovely in her wedding gown of brocaded satin damask, fashioned simply with a flounce of the material bordering the net yoke a similar flounce forming a peplum at the extended waistline.

The bodice was fitted and the full skirt extended into a long train. Her fingertip veil was caught into a Dutch cap which featured tiny orange blossoms, and she carried a colonial bouquet of white sweet peas, rosebuds and forget-me-nots. She carried a handkerchief of linen and lace, a family heirloom dating back 30 years.

In a charming innovation, the bride paused as she approached the altar on the arm of her father, while the bridegroom sang, "I Love You Truly." He then escorted her to the altar for the exchange of vows.

Attendants included Miss Patricia Haskin, maid of honor, Miss Doris Berry, the groom's sister, and Miss Betty Van Lente, bridesmaids, and Miss Glenyce Kleis, the bride's sister, junior bridesmaid.

They all wore white, their gowns fashioned of the same material as the bride's with net overskirts. Flounces of the net, bound with the brocaded satin, edged the neckline of the fitted bodice. The sleeves were short and the net skirts were full. They wore shirred headbands of the net and carried colonial bouquets of white sweet peas and carnations varying in shade from pale pink to crimson.

Robert Snow was best man and ushers were Roger Rietberg and Paul and Carl Kleis, brothers of the bride.

Following congratulations in the church, a reception was held in the church parlors. Prof. and Mrs. Garrett Vander Borgh were master and mistress of ceremonies. Assisting with the gifts were the Misses Lois Jane Kronmeyer, Phyllis Haskin and Edna Mae Van Tatenhove. The wedding supper was served by women of the church. During the evening the bridegroom and his sister, Miss Berry, from Atlanta, sang "My Hero," from the "Chocolate Soldier," accompanied by Miss Schuppert, and Miss Berry also sang "O Promise Me."

Mr. and Mrs. Berry later left on a short wedding trip, the bride wearing an outfit of aqua and black and a corsage of talisman roses. They will leave soon for Atlanta where Mr. Berry will enter Emory university for his senior year in engineering school.

The bride, a graduate of Holland high school and Hope college is a teacher of mathematics at Lee high school in Grand Rapids. The groom who attended Hope college while a member of an ASTP unit during the war, later served overseas with the army signal corps.

Out-of-town guests included the groom's parents and sister from Atlanta, and the bride's brother, Paul, navy hospital apprentice stationed at Memphis, Tenn.

## Hungarian Professor to Speak at Hope College

Dr. Bela Vasady, a leading figure in the Reformed church of Hungary and professor of the Reformed Theological faculty of the University of Debrecen, will be in Holland next week and will speak in Hope Memorial chapel at a public meeting at 9:30 a.m. Thursday. He will preside at an open forum in the chapel basement at 4:30 p.m. that day. Invited are ministers of the city and members of the Calvin college and seminary faculties. He will also address three college classes Friday morning.

Dr. Vasady, president of the theological department of the 400-year-old Debrecen college was for 10 years secretary of the Reformed Ministers' association in Hungary and is chairman of the Society of Reformed Theologians in Hungary. He is also a magazine editor and secretary of the Hungarian Ecumenical council.

Arriving in New York city by plane from Paris in April Dr. Vasady is spending a few months on his way to the United States as guest of World Council of Churches, speaking on conditions of protestant

church life in the ancient Reformed churches of Hungary and eastern Europe.

Lean from years of scanty rations and hard work, but full of enthusiasm Dr. Vasady said he is happy to be paying a visit to the United States where he received degrees from Central Theological seminary in Dayton, O., and Princeton Theological seminary, on previous visits.

"The Hungarian Protestant churches have been hard hit, Dr. Vasady says, first by the fact that they had to face the spirit of Nazism in Hungary, even before the war, and secondly, because a third of the protestant churches and church buildings were demolished or seriously damaged while the country was a battlefield in 1944.

Protestants comprise 20 percent of the population. There are two million members of the Reformed church one-half million Lutherans, and Baptist and Methodist minorities. Collapse of the currency has produced a terrible hardship on the protestant churches, rendering their invested funds and securities valueless he says.

## Boom In Oil Well Output Seen In Southwest State

Grand Rapids, June 6.—Because several large oil wells have been discovered in Kent county recently, oil men believe southwest Michigan is on the way back as a prominent oil producing section in the state.

Between 1938 and 1941 dozens of pools, some small and some large were uncovered in this part of the state but since 1941 exploration has resulted in little more than blanks or fizzes.

Now there are indications that there are many more large wells in southwest Michigan.

## Dutch Beaten By Grand Haven Then Trounce Seaters

Skaalen Wins Night Game Here As Mates Get Twenty-Two Hits

The Holland Flying Dutchmen were defeated at Grand Haven, 10-6, Memorial Day afternoon and then returned to more familiar surroundings — Riverview Park — and handed the Grand Rapids Seaters a 25-4 lacing at a night game here.

In the afternoon game, against the Grand Haven Millers, the Dutchmen found the slants of E. Marod somewhat baffling, especially with men on bases. They got 10 hits but they were spaced into six innings.

Meanwhile, Grand Haven bunched 10 hits off Clyde O'Connor in three innings for 10 runs. In the second, fourth fifth and sixth innings he set them down 1-2-3.

Allen Piersma relieved O'Connor in the eighth.

In the night game Mike Skaalen whiffed 11 Seater batsmen in eight innings while his teammates found four righthanders obliging. Holland got 23 hits in the night contest.

The only trouble Skaalen was in, for seven innings, came as a result of errors by Wayne De Neff.

In the eighth Skaalen eased up with a 22-0 lead and three runs came home. Piersma pitched the ninth inning.

Top hit of the night game was Harold Van Wieren's clout into the leftfield stands in the sixth. Skaalen had a triple and two doubles along with other doubles by Juke Van Huis, Harry De Neff, Loren Wenzel, Don Van Lente, Piersma and W. De Neff.

Russ Woldring missed the night game and about half the Grand Haven contest when he developed a charley horse rounding first base after hitting a double.

In the afternoon game, Clare Van Wieren, who replaced Woldring, and Van Huis led the hitting attack each with two safeties. At night Wenzel had four and Van Lente, H. De Neff, H. Van Wieren and Skaalen, three.

## PUBLIC OPINION

Holland City News

Gentlemen:

I received the Holland City News of May 23, 1946 last Monday, May 27. It was slightly delayed account of the railroad strike. The reason I am writing is that I noted in that issue the death of E. P. Stephan. Mr. Stephan is a brother of the late John Stephan who died a good many years ago and was an uncle to me by marriage. Mr. E. P. Stephan was a friend of mine and I thought very highly of him. I always called on him on my trips to Michigan.

I was in hopes of getting to Holland for "The Tulip Time" but because of illness which came on a year ago tonight, I was unable to do so as I am in worse condition today than a year ago. I suffer pain day and night and can barely get across the room. I never get down stairs and have been in the hospital at various times nearly three months.

Having read about Tulip Time I wrote Mr. Stephan for literature May 4. Under date of May 8 he acknowledged it and sent me some literature and stated "I am coming down with a cold. I am leaving the office to go to bed not knowing how long I will be detained." After giving brief information he wrote "I am making this letter very brief and upon my return to the office after I get this cold I will write you more in detail."

As I did not hear from him I again wrote him May 22 and enclosed a number of newspaper clippings which might interest him. From the article in your paper I take it he was found dead the 17th and funeral on the 21st. I will certainly miss him as he is only one of the few men left that I know in Holland. I was born there April 12, 1881, and left when about 10 years old, living in Benton Harbor the next 10 years.

What really prompted me to write was the marriage license application of George Vander Wal, Holland, Mich., and Dorothy Mae Klomprens, Holland, Michigan.

I am enclosing clippings several of which are about parking meters. I notice from the News that Holland is talking about them.

Then too if you ever build that auditorium on Main Street one block west of River Ave., don't forget about the ice skating rink. St. Paul's rink is most outstanding as you will note from clipping No. 6.

As I recall, Zeeland is a center for baby chicks. You will see from No. 7 that 10,000 or more were held up in St. Paul P.O. and were sold for what the postmaster could get because of the railroad strike.

No. 8 won't be of much news as accidents are widespread. One of my doctor's boys, 5 years old, was badly hurt this a.m. when riding his scooter down a driveway near his home and he crashed into the side of a fire cleaning truck near his home. He died at 4 p.m. today according to the papers.

I hope my effort in writing this letter has been worth while. You can realize how I appreciate the News for every once in a while I read of something about someone I know.

I won't get to Michigan this year I fear, but hope I will get better some day.

Tell the Third church people to turn in all the church news they can for I am interested. As a child I attended S.S. there and my father was a carpenter and helped build it. They have a new man now and I wish him well, as I do for all ministers.

Sincerely yours,

Mr. Reinder Niemeyer

## BPW Details Plans for Soft Water Plant Here

New Wells, Pipeline Included in Estimate of Expenditures

Holland, Mich. June 3, 1946

To the Honorable, the Mayor and Common Council of the City of Holland, Mich. Gentlemen:

The Board of Public Works received a communication from Council August 30th, 1943, directing our attention to the amount of iron and objectionable gases prevalent in our water supply. Upon receipt of this communication the Board added the study of water treatment to our exploration of a larger supply of water for the City of Holland. The need for an additional water supply is two fold. Our present wells have proven inadequate during peak summer demands and the Michigan Department of Health has requested that the 19th and 28th St. pumping stations be discontinued "due to the potential health hazards in the nature of sewers and long suction lines". This would leave us only the East 8th St. wells, which in recent years have supplied about two-thirds of the annual requirements.

The advantages of a softer water supply have long been appreciated as well as the benefits from a reduction in the iron content. Upon recommendation by our Consulting Engineers in 1944, the Board attempted first to obtain additional wells west of the City where experience has shown the ground water to be softer. After determining that the ground water west and south of the City was inadequate, an extensive study was made east of the City with the help of the Geological Division of the Michigan Conservation Department and the U. S. Geological Survey. As a result of this exploration the Board of Public Works believes that there is a sufficient ground water supply to justify its development and adequate for Holland's needs for a long time to come. This water, however, is very hard and contains considerable iron and some gases.

It is the recommendation of the Board that this water supply east of the City be made available for our use and also that we undertake the treatment of this water supply for the removal of hardness, iron and objectionable gases.

At present most families in Holland soften their water with compounds and soap. A few have domestic Zeolite softeners and some use cisterns as a source of soft water. Mr. VandeVelde of the State Department of Health in his talk at our joint meeting of May 8th summed it up very well when he said it isn't a question of whether we soften water for most of our uses but simply how, because the hardness must be re-

moved before soap is effective. The Board believes that the citizens of Holland are paying a very high price for soft water without getting it.

The operating cost of the Water Department would be doubled with the additional personnel, chemicals, depreciation and maintenance required by a water conditioning plant and therefore the rates should be increased in about the same amount. The increased cost to the consumer under the new recommended rate will be a minimum of \$6.60 per year and an average of probably \$9.00 or \$10.00, which will be more than offset by the many advantages and savings. The estimated saving in soap alone for the average family of five is approximately \$12.00 per year and many more dollars will be saved by the increased life of clothing, plumbing, furnace coils, water heaters, industrial heaters and power boilers. The preparation of food is also improved with soft water and the life of utensils increased. The removal of iron along with the softening of water will do much to ease the many household tasks.

A recent estimate of the cost of this project is \$510,000, which includes \$126,000 for the wells and pipe lines, \$277,000 for the water conditioning plant, \$57,000 for a million gallon reservoir and \$50,000 for engineering, inspection, tests and land. The project would be financed from the depreciation reserve and the profits of the Water Department in about three years. We believe that it will be in ample time not to interfere with the expansion considered necessary in the Electric Department.

The matter of a Lake Michigan supply has been thoroughly studied and we find that the initial cost and also the operating cost would be approximately double our East 8th St. plan. In addition it has many objectionable features such as taste, temperature and maintenance cost.

The Board of Public Works recommended to Council and asks approval to proceed with the construction of new wells and a water conditioning plant.

Approval is also asked for the rate schedule transmitted with our communication of May 1st, to be effective when the improved water service is available.

Respectfully submitted,

BOARD OF PUBLIC WORKS

G. Appledorn,

Clerk.

## New Tax Rate 52 Cents Less Than Last Year

Summer Rate of \$26.69  
Is the Lowest for City  
In More than 11 Years

A 1946 summer tax rate of \$26.69, which is 52 cents lower than the 1945 rate besides being the lowest rate in more than 11 years, was announced Tuesday by City Assessor William Koop and City Clerk Oscar Peterson, following final tabulation of the assessment figures.

The tax rate was determined at a final meeting of the board of review at the city hall this morning. The 1945 rate was \$27.21 and the rate in 1944 was \$30.04. Taxation is based on a unit of \$1,000 assessed valuation.

Holland's assessed valuation for 1946 is \$14,187,655, or an increase of \$72,705 over the 1945 figure of \$14,114,950. This year's assessment includes \$11,957,505 in real estate and \$2,230,150 in personal property. Last year's assessment included \$11,836,250 in real estate and \$2,278,700 in personal property.

The 1946 tax rate includes a rate of \$12.76 for city and \$13.93 for school taxes. The city tax rate for 1946 is 71 cents less than in 1945 and the 1946 school tax rate is 19 cents more than in 1945.

Broken down into two parts, the city tax rate allows \$12.44 for operating expenses and 32 cents for debt service. In 1945, the rate for operating expenses was \$12.62 and 85 cents for debt service.

The 1946 school tax rate for operating expenses is \$10.99, a nine-cent increase over last year. This year's rate for school debt service is \$2.94 or 10 cents more than the 1945 figure of \$2.84.

The amount to be raised by the city of Holland for school operating expenses in 1946 amounts to \$155,922.33. This is \$2,069.37 more than last year's figure of \$153,852.96.

The city budget for operating expenses this year provides for \$176,465 compared with the 1945 figure of \$178,120. The amount to be raised for debt service this year is \$4,535, compared with the 1945 figure of \$11,880.

Valuation and tax rates for other years follow: 1944—\$13,752,990 and \$30.04; 1943—\$13,043,701 and \$28.01; 1942—\$12,712,046 and \$29.80; 1941—\$11,935,921 and \$30.34; 1940—\$11,426,441 and \$32.98; 1939—\$11,438,090 and \$30.31; 1938—\$11,757,153 and \$28.56; 1937—\$11,414,270 and \$29.11; 1936—\$11,141,565 and \$30.52; 1935—\$11,041,865 and \$31.22; 1934—\$11,109,421 and \$31.81.

## Youngest Musicians of City March in This Band

Proudly they march in the Elementary school band!

To be selected for the picked band which marched in the three Tulip Time parades and the Memorial day parade is the highest honor which can be bestowed on grade school musicians after a year of practicing and the 63 youngsters who put on an exhibition of marching skill and playing rivaling many older bands drew plaudits from the many thousands lining the curbs.

The Elementary school band is formed of the smaller bands of the five elementary schools and consists of fourth, fifth and sixth grade pupils and one second grader.

The picked band began practicing five or six weeks before Tulip Time under the direction of Mrs. Clara Landes and Everett J. Kisinger Parents who had lived through a year of agonizing one-

note music were impressed with the result of the entire ensemble.

Youngsters presented a neat picture in their white trousers, white shirts, black ties, black and orange capes and black and orange overseas caps.

The above picture of the band was taken from the marquee of the Warm Friend tavern during the Tulip Time school parade which was led by the Elementary band. The strutting majorette in the foreground is tiny Cynthia Schaap of Longfellow school. Mrs. Landes is marching at the extreme right. Kindergartners in costume follow the band.

The marching band was reduced slightly to make a "concert orchestra" performing at the spring musicale presented by public school instrumental organizations Monday night in Holland high school.

## HOLD ANNUAL MEETING

Until all responsible government heads are made to realize that the measure of a nation's true greatness is the spiritual stature of its people, rather than its physical resources, there can be no end to the conflict between materially mental forces that precipitated World War II, the Christian Science Board of Directors told the annual meeting of The Mother Church, the First Church of Christ, Scientist, in Boston, Mass., today.

This statement was given before thousands of Christian Scientists attending the first peacetime annual meeting in five years, many of whom came from countries long shut off from the world by war. "The supreme duty of statesmen and churchmen in this crucial hour is to use every means at their command to prevent another world conflict and to bind up the

unhealed wounds left by the last one," the directors emphasized.

Announcement of the appointment of Luther Phillips Cudworth, C. S. B., of Boston, as president of The Mother Church, was also made today. He has served at various times as purchasing agent of the Christian Science Publishing Society, a director of Christian Science Welfare activities in Portsmouth, N. H., naval prison, committee on publication for the state of Oregon, and as first reader of First Church of Christ, Scientist, Marshfield, Mass.

He is a native of Iowa and a graduate of the Harvard university college of business administration. Before devoting his entire time to Christian Science activities, he was associated with the printing and publishing business in St. Paul and with the Portland, Ore., Railway, Light and Power Co.
